History of Tavira: the built environment

with Peter Kingdon Booker

History of Tavira: the built environment

Tavira is unusual in that the town has occupied three different sites in its long history. In his lecture, Peter will show why the town moved position and he will estimate when it came to its present location. Also important to the present shape of the town are the castle and the walls (some of them Muslim in origin) together with its military buildings. The old bridge has the reputation of being

Roman, but this idea is not correct; when was it built? There is a very

pleasant garden next to the river (Jardim do Coreto), but it has not always been there. What did it replace? How did the town assume its present shape? Tavira has the reputation of possessing thirty one churches. It has not so many, but still more than any other town in the Algarve. Why? How important has Tavira been in the history of Portugal? Peter has been interested in the history of his adopted town for the sixteen years he has lived in the Algarve, and he brings his Cambridge historical education to bear on the fascinating story of Tavira. This lecture is the first of two, and in the second lecture later in the year, Peter will examine the social and economic history of the town.

Guided Walk Around Arraial Ferreira Neto with Marco Lopes

This guided walk will be in support of the campaign to refurbish the old fishing boat *Os Cavalinhos* (the little horses), and it will be led by local historian Marco Lopes. Built in the 1940s, the Arraial was the base of operations of the last tuna *armação* in Tavira (and in the Algarve) until 1971, and from 1974 it was used as accommodation for *retornados* from Portugal's African colonies. This guided walk will show an integral part of Tavira's recent history. Marco Lopes has been interested in the history of tuna fishing in the Algarve for some years and has made contributions to Câmara publications on the history of Tavira and its industries. Voluntary monetary donations can be made at the end of the walk.

Concert with Inge Lulofs (piano) and Carola Ligt (flute)

Inge Lulofs plays piano and celesta with the Netherlands Symphony Orchestra, and is the accompanist for all auditions. She holds a Performance Diploma (1985) from the Conservatory in Enschede, The Netherlands and has formed part of the Valerius Ensemble since its foundation in 1988. This Ensemble consists mainly of musicians from the Netherlands Symphony Orchestra and performs regularly with national and international soloists. The CDs and DVDs recorded by the Ensemble include works by Paul Hindemith, Max Reger, Leo Samama and Raimundo Pena Forte. In an innovative version of 'Le Carnaval des Animaux', by Saint-Saëns, the Ensemble cooperated with the comedian Herman Finkers. **Inge** performs regularly as an accompanist of instrumentalists, vocalists and choirs, and has made various radio and TV recordings. Her concert tours have included Russia, South Korea, the United States, Germany, Portugal and Spain. She teaches piano at the music school in Nordhorn (Germany), and has her own studio in Enschede for private piano instruction.

Carola Ligt studied with Raymond Delnoye at the Tilburg Conservatory of Music. She graduated 'cum laude' as both a teaching musician and performing musician and had a special recommendation in chamber music. Afterwards she studied with Gaby van Riet and joined masterclasses with Gaby van Riet, Trevor Wye, Peter-Lukas Graf, Emile Biessen and Johan Rijcken. **Carola** won first prize in the Dutch National Flute Competition in 1985 and in 1986 received the Buma Trophy for the best performance of a Dutch composition. She played flute in several orchestras, including the Dutch Student Chamber Music Orchestra, the Jeunesses Musicales World Orchestra and has performed as soloist with the L'Orchestre International de Flandre. In 1996 she was appointed principal flute in the Netherlands Symphony Orchestra, based in Enschede and now appears with several chamber music ensembles, among them The Valerius Ensemble. **Carola** is professor of flute at the Dutch "ArtEZ Institute of the Arts" (Conservatory of Music) in Enschede en Zwolle and has given masterclasses in Brazil, Belgium, Poland as well as The Netherlands. She is often asked to be a member of the jury in music competitions, for example at the Prinses Christina Concours.

Native Plant Species of the Algarve with Marilyn Medina Ribeiro

Marilyn Medina Ribeiro has degrees in Graphic Design and Landscape Management and has worked in nurseries, parks and private gardens. In 2008 after moving to the Algarve, she managed hotel gardens and later founded her own company, Waterwise Gardens, to promote sustainable land management. She will be talking about the native plants of the Algarve - how and where to find them, what their special characteristics and adaptations are, and how they (and their close relatives) can be of use in our gardens. Often, we have the misguided view that wild plants are weeds and unsuitable or not pretty enough for cultivation, but Marilyn hopes to show that there is a diverse and beautiful range of species which are not just appropriate but highly recommendable and useful alternatives for our gardens.

Visit to Quinta das Sesmarias with Rosie Peddle

Rosie is Secretary of the Association for Mediterranean Gardeners in Portugal. Rosie and Rob Peddle have 16 000m² of garden and wild areas, where a combination of desperate planting and lazy neglect provides an insight into what nature will do if you leave it alone. No automatic watering systems and no lawns and their swimming area is a natural pond. There may be plants/marmalade for sale on the day in aid of their funds plus a selection of books on the natural history of the Algarve. There will be a question and answer session during tea. **To book please contact me by Thursday 28 May.**
